WHITE ZINC PAINT.

After therough test in Europe and the United States, has been found to retain its beauty and protective qualities/longer than any other paint. For whiteness and brilliancy it is unrivaled; it is free from all poisonous properties so common and dangerous in other pigments; will cover—equal weight—from 60 to 100 per cent. more space than lead, and is, therefore, much cheaper to the consumer. As an inside paint, it will not turn yellow, even when exposed to the sulphurous gases of coal fires or the foul air of sings. Their White Zina ground in varnish produces the porcelain finish. Their who wood, brick, from and other metallic surfaces, are remarkable for their fire-proof properties. They are specially adapted for marine purposes, having been found to resist the corroding action of salt water, so destructive to other paints. Dealers supplied on liberal terms by

Mesers Steams & Marvis, Theselay, April 18, 1-52.

Mesers of the course of the course of the 5th is at hand. In reply, every Safe in the fire, except yours, has proved good for nothing. I lost a large Safe—it was perfectly destroyed; but in the small Salamander I bought from you, nothing was injured. Your obedient servant,

WM. T. CLEMSON.

The above letter shows that in a real hot fire Rich's Sala-Manders are the only Safes to be depended upon. In the Pearlest, fire, eleven Safes, of different makers, were totally destuyed, Rich's Safe alone bidding defiance to the fames, preserving notes, bonds and mortgages, to the value of \$100,000. The Chillicothe fire is a parallel case—every Safe but Rich's is destroyed. These repeated occurrences prove incontestibly that Wilder's Patent Salamanders, with Rich's improvement, are the best Safes made in the United States, or in the whole world. They can be had at the depot, No. 146 Waterset, and at the Factory, corner of St. Mark's-place and Avenue A, New-York.
